FEDERAL POLICY STATEMENTS

Notification of Rights under FERPA (School Board Policy 4005)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. These rights are:

1. The right to inspect and review the student’s education records within 45 days of the day the school receives a request for access.

Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.

Parents or eligible students who wish to ask the school to amend records should write the school principal (or appropriate school official), clearly identify the part of the records they want changed, and specify why it should be changed. If the school decides not to amend the records as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

3. The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school’s or school district’s annual notification for FERPA rights.

ACSD#1 School Official and Legitimate Educational Interest

A school official typically includes a person employed by the school or school district as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel) or a person serving on the school board. A school official also may include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, medical consultant, or therapist; a parent or student volunteering to serve on an official committee, such as a disciplinary or grievance committee; or a parent, student, or other volunteer assisting another school official in performing his or her tasks. A school official typically has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll. (NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request.)

Directory Information Public Notice

Information the school has designated as “directory information” if applicable requirements under § 99.37 are met (§ 99.31(a)(11)) including but is not limited to, the student's name; address; telephone listing; electronic mail address; photograph; date and place of birth; major field of study; grade level; enrollment status (e.g., undergraduate or graduate, full-time or part-time); dates of attendance; participation in officially recognized activities and sports; weight and height of members of athletic teams; degrees, honors and awards received; and the most recent educational agency or institution attended.

The *Family Educational Rights and Privacy Act* (FERPA), a Federal law, requires that ACSD#1, with certain exceptions, obtain your written consent prior to the disclosure of personally identifiable information from your child’s education records. However, ACSD#1 may disclose appropriately designated “directory information” without written consent, unless you have advised the school district to the contrary in accordance with school district procedures. The primary purpose of directory information is to allow the school district to include information from your child’s education records in certain school publications. Examples include:

- A playbill, showing your student’s role in a drama production;
- The annual yearbook;
- Honor roll or other recognition lists;
- Graduation programs; and
- Sports activity sheets, such as for wrestling, showing weight and height of team members.

Directory information, which is information that is generally not considered harmful or an invasion of privacy if released, can also be disclosed to outside organizations without a parent’s prior written consent. Outside organizations include, but are not limited to, companies that manufacture class rings or publish yearbooks. In addition, two federal laws require local educational agencies (LEAs) receiving assistance under the Elementary and Secondary Education Act of 1965, as amended (ESEA) to provide military recruiters, upon request, with the following information – names, addresses and telephone listings – unless parents have advised the LEA that they do not want their student’s information disclosed without their prior written consent. [Note: These laws are Section 9528 of the ESEA (20 U.S.C. § 7908) and 10 U.S.C. § 503(c).]

If you do not want ACSD#1 to disclose any or all of the types of information designated below as directory information from your child’s education records without your prior written consent, you must notify the ACSD#1 in writing within 15 days of student enrollment in ACSD #1. Notification must be sent to ACSD#1, 1948 Grand Avenue, Laramie, WY 82070.

4. 4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School District to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW

Parents Right to Know

The federal law, commonly called "The Every Child Succeeds Act," requires that schools which receive Title I money notify parents that they may request certain information about their children's teachers' qualifications. The specific information about which parents may inquire includes:

1. Whether the teacher has met Wyoming's licensing criteria for the grade level and/or subject s/he teaches;
2. Whether or not the teacher is teaching on emergency licensure or has had licensing criteria waived.

In addition, if a child receives services from a paraprofessional, parents may request information about the paraprofessional's qualifications.

You may request this information by completing the Request for Information About Educator Qualification Form, and submitting it to the ACSD #1 Human Resource Director at the district office. This form is available online at the ACSD #1 web-page (www.acsd1.org) or by contacting the school's principal.

Please rest assured that Albany County School District One takes pride in the quality of teachers and paraprofessionals it employs to serve your children. If you have any questions, please feel free to contact your principal.

What is Child Find? (School Board Policy 3021)

The Individuals with Disabilities Education Act requires school districts to locate and evaluate children between the ages of birth and 21 who may have a disability. This process for locating and evaluating children with these issues is referred to as "Child Find".

The District conducts Child Find activities throughout the year. If a parent is concerned about their child's development, would like to know how to help their school age child succeed, has questions as to whether their child a disability, or knows their child has a disability and is looking for appropriate education services, the Child Find process assists in addressing these concerns. Parents wishing more information about these services and the process by which they can be implemented should contact the Director of Individualized Instructional Programs at (307) 721-4460 or the building principal.

School Age Children: Albany County School District One identifies children five (5) through twenty-one (21) who may have a suspected disability. A parent or staff member may refer a student at their local school by contacting the principal or the Special Services office at (307) 721-4460.

SCHOOL DISTRICT POLICIES AND PROCEDURES

ATTENDANCE AND ENROLLMENT

Admission/Enrollment (School Board Policy 4001)

Per state law [§ 21-4-301], children who will be five (5) years old on or before September 15 in the year of school entry are eligible for kindergarten. It is the expectation when children are enrolled in Albany County School District One they follow and must be in compliance with District ages 5-7 attendance guidelines. Please bring your child's birth certificate, and physician-signed immunization record for registration. Students have thirty (30) days in which to be caught up on immunizations or provide the school authority the appointment date for immunizations which can be verified.

Children must be six (6) years of age on or before September 15 to enter the first grade that year. A child who has completed a full year of kindergarten the preceding year in the public schools of another district may qualify for enrollment in grade one on a probationary basis, regardless of age.

A birth certificate, or other acceptable documentary evidence of birth, and immunization record shall be required for all children entering school in the District for the first time.

Papers transferring/establishing guardianship are required for any child living with someone other than biological or adoptive parents.

School Attendance is Required from Seven (7) to Sixteen (16)

All children must begin school if they will turn seven on or before September 15th of that year. Parents may send their children to public school, choose a private school, or arrange for home schooling that meets state requirements. Compulsory education is legally required until a child either turns sixteen (16) or completes tenth (10th) grade. Parents failing to meet this requirement can be convicted of a misdemeanor punishable by up to a \$25 fine and ten (10) days in county jail.

There are a few exemptions to this law. First, the District Board of Trustees can provide an exemption when it believes compulsory attendance would be detrimental to a child's mental or physical health or to other children in the school. Second, the Board can also grant an exemption in the case of undue hardship. Finally, the compulsory education law does not apply to students who have been lawfully suspended or expelled.

For more information see School Board Policy 4001 and Wyoming State Statute § 21-4-301 and § 21-4-302

Attendance Boundaries (School Board Policy 4003)

Children are required to attend the school in the areas in which they reside and which have been determined by the Board of Education. The parents'/guardians' legal place of residence within

those boundaries determines which school the child will attend. In the case of divorced or separated families, the custodial parent's legal address will determine school placement.

In the event of building or class overloads, the District may reassign students to buildings outside their designated areas. The District guidelines for class sizes are: 16 students in grades K-3, 22 students in grade 4, and 24 students in grades 5-6.

Students who change their place of residence during the school year to one outside the school's attendance area with Albany County will be allowed to remain in their placement for the remainder of the school year as long as the class size does not exceed limits. Parents are responsible for providing transportation in this case. Frequent absences or tardies may result in the child being required to attend the school in the area in which the student currently resides.

Boundaries Exception

Parents wishing to request a boundary exception are required to complete a "Boundary Exception Request" form and return it to the school in the area in which they reside. The request will be considered by the administrators involved, and the parents will be notified of the action taken on their request. All "Exceptions" must be renewed annually and are acted upon just a few days before school begins.

Attendance Policy (School Board Policy 4006)

"Excused absences" shall include approved absences for school-sponsored activities, and approved absence for illness, medical and dental appointments that cannot be held after school, family emergencies, court appearances, and pre-arranged absences as approved by the Administration. A doctor's verification may be required in cases of illness.

"Tardies" will be considered a form of absence, with three (3) tardies equaling one day absent.

"Unexcused absence" means the absence of any child required to attend school when such absence is not excused to the satisfaction of the board of trustees by the parent, guardian, or other person having control of such child.

"Habitual Truant" as defined by law, a habitual truant is any child with five (5) or more unexcused absences in any one school year. It is the duty of the principal and those persons who serve as attendance officers to investigate and initiate legal proceedings against parents and guardians whose children are habitual truants under the legal definition, W.S. 21-4-101. Excessive unexcused absences may be referred to the Albany County Attorney.

If a student accumulates ten (10) excused absences within any year, verification of further excused absences may be required, i.e., doctor's excuse. Students without verifications for further absences may be referred to the Albany County Attorney.

After ten (10) consecutive days of absences, a student will be dropped from the rolls per state statute. The student will need to reenroll. Exceptions will be made in the event of a prolonged illness when homebound instruction is provided by the School District, W.S. 21-4-402.

Bus Transportation/Bus Conduct (School Board Policy 2018)

Bus transportation is available to students living one mile or more from the school in which attendance area they reside. Students receiving special services in a school outside their attendance area are also eligible for bus transportation. The District has implemented a new bus stop locator system, InfoFinder i. This bus stop locator system allows parents to enter a home address, locate the nearest bus stop, and the pickup time for each school. InfoFinder i can be found on: <http://www.infofinderi.com/tfi/address.aspx?cid=ACSD30P58TZI6>.

Contact the Transportation Department at (307) 721-4470 for further information.

Albany County School District One, in the interest of student safety, highly recommends that all kindergarteners and first graders are taken to and picked up from the bus stop by an adult or an older sibling. Students are expected to wait in an orderly manner while waiting for buses and to respond to the directions of the bus driver while riding the bus. Discipline of students on the bus is handled by the bus driver and misbehavior will be reported to the Director of Transportation who may notify the principal. Students may be restricted from riding the bus for disciplinary reasons. Student transportation is a privilege and improper behavior may result in the loss of that privilege.

HEALTH

Albany County School District One makes every effort to ensure a safe and healthy learning environment throughout the school. If the school personnel is concerned about a child's health, or if a child has a complaint about his/her own health, the school will attempt to resolve that concern and contact the parents/guardians if necessary.

Health Screenings (School Board Policy 3022)

The School District provides general screening in the areas of hearing, vision, and scoliosis to selected grades each year. Kindergarten screening is conducted prior to the start of school in August. Counseling, school nursing services, and homebound instruction services are accessible depending on need. In addition, special education services are available for qualified students in the areas of instruction, speech and language therapy, social work, psychological services, physical/occupational therapy, adaptive physical education, audiology services, counseling, school nursing services, vision/hearing, and assistive technology/equipment.

Immunization Requirements (School Board Policy 4032)

All students enrolled in District educational programs will have written documented proof of immunization included in the student cumulative education file. The proof of immunization must be signed by either a private licensed physician or his/her representative, or by any public health

authority on a form provided by the State Department of Health. New students to the District will be allowed no more than thirty (30) calendar days to obtain proof of immunization. If proof of immunization is not provided within this time limit, the principal will not permit the child to continue to attend school until proper proof of immunization is provided. A student will be allowed to attend school while receiving continuing immunization if the school administrator receives written notification from a private licensed physician or his/her representative, or from a public health official, specifying a written schedule for necessary immunization completion within the medically accepted time period. Once the scheduled deadline for completion of immunization is past, the parent/guardian is responsible for providing a completed official record of immunization or the child will not be allowed to continue attendance in school.

Exceptions will be allowed for students providing waivers authorized by the state or county health officer. However, in the presence of an outbreak of vaccine preventable disease as determined by the state or county health authority, these students will be excluded from attendance for the time period determined appropriate by the state or county health authority. Information regarding immunizations required by the State Department of Health are available upon request in the principal's office at each school.

Medication Policy (School Board Policy 4014)

For the protection of all students, the Albany County School District One Board of Education policy states that school personnel may NOT administer any form of medication to pupils without the following process on record at school. If it is determined by a physician that medication must be taken routinely during school hours, proper prior arrangements for administration of medication at school must be made. The following procedures will be implemented when school personnel supervise the administration of medications within the school setting.

1. "Medication" shall include prescription and nonprescription drugs intended for the diagnosis, cure, treatment or prevention of any illness, disease or other conditions adversely affecting the individual.
2. Each medicine to be self-administered by the student shall only occur under the supervision of principal-designated school personnel.
3. Neither the District, nor any of its personnel, shall be responsible for medication taken by a student or administered by the parent or legal guardian without supervision of designated school personnel. Likewise, the District and its personnel will not be responsible for the drug itself. Supervising personnel will only ensure that medication is taken in specified dosages at specified times.
4. Each medicine will be self-administered only under the supervision of designated school personnel when a "Request for Supervision of Self-Administration of Medication at School" form has been signed by the parent/guardian, the prescribing physician, and approved by the building principal and the school nurse. These are to be renewed on an annual basis.
5. The "Request for Supervision of Self-Administration of Medication at School" form must be completed and on file in the school office prior to supervision of any self-administered medication.
6. Medication which is to be self-administered under the supervision of school personnel will:

- a. be in its original pharmaceutical container. If not in the original container, personnel shall not allow it to be taken.
 - b. remain in the designated secured area of the school. Students will not be permitted to keep their medication in their possession while at school.
7. A record shall be maintained of each time the medication is taken, including the child's name, medication name and dosage, time, date, and signature of the person who supervised the student taking the medication.
8. District personnel will be trained in supervision of medication self-administration by the building nurse.

EXCEPTIONS:

1. In the event that exceptions are needed, individual adjustments to this policy may be made with approval of the principal or school nurse (e.g., students may be allowed to carry their own asthma inhalers or EpiPen auto-injections if ordered by a physician).
2. In the event that a student is incapable of supervised self-administration of medication, his/her medication will be administered by a school nurse, the parents, or other appropriately trained school personnel. Parents/Guardians must sign a release form indicating the specific school personnel whom they have trained to administer the medication other than the school nurse and whether or not they will allow anyone else to administer the medication, if one of the persons they have named is not present during an emergency requiring use of the medication. For students for whom medication must be administered, the school nurse and other school personnel who have been given permission by the parents to administer the medication, and parents/guardians will meet to discuss the logistics of the administration of the medication. The principal, the teacher(s), and other school personnel may be invited to this meeting.
3. Students may possess and self-administer asthma medication within the school setting of the District (which includes in school, on school grounds, on school buses, at school activities off the school grounds, etc.) if a written statement is submitted to the principal, or the principal's designee, of the school attended by the student containing the following:
 - a. Parental verification that: (a) the student is responsible for and capable of self-administration and parental authorization for self-administration of asthma medication, (b) the medication carried by the student in the school setting will always be current (i.e., not expired) and of the proper dosage, and (c) the student will always have the proper medication while in the school setting; and
 - b. Physician identification of the prescribed or authorized medication and verification of the appropriateness of the student's possession and self-administration of the asthma medication.

The form to be used for the written statement shall be the one developed by the Wyoming Department of Education and will require signatures from the parents/guardians of the student and the student's physician or the physician's representative. This form will be available at any school, the District administration office, and on the District's website.

Nurses or other school personnel shall have the right to examine medication carried by students to ensure that it is current and previously authorized to be carried in the school setting. Nurses or

other school personnel may require students to demonstrate that they can properly use an inhaler before students are allowed to possess and self-administer asthma medication in the school setting.

As used in this policy, “asthma medication” means prescription or nonprescription inhaled asthma medication. This policy implements W.S. 21-4-310.

Food Service Payments

Parents are responsible for keeping a sufficient balance in their student’s lunch accounts if they are on full payment. Payment can be made on the District website, at the Food Service office or with a check sent with the student to school. If individual student account balances reach too large of a deficit balance, a collection process will be initiated and could lead to the account being sent to a local collection agency. Parents in this situation can contact the Food Service office at (307) 721-4482 to set up a payment plan.

Food Allergies

There are some students in Albany County School District One elementary schools who have significant food allergies, especially to peanuts and products containing peanut oil. If these students come in contact with the foods to which they are allergic, they can suffer significant health problems. In order to protect these students, all families are asked to comply with the school’s

request for restricting the types of food brought by students on a daily basis or by parents for special occasions.

Parents/Guardians who have a child with food allergies are asked to notify the school nurse and/or principal.

SAFETY

Accident/Injury (School Board Policy 4010)

In the event of a serious accident and/or injury, school personnel will attempt to contact the parents/guardians or their designated emergency contact person as soon as possible. If school personnel believe a child needs immediate emergency care, they will either call 911 for an ambulance to transport the child to the hospital or transport the child themselves. They will act in the best interests of the child and consider the time factor in deciding to call 911 or transport themselves. In the event that school personnel are unable to contact the parents/guardians or their emergency contact person, they will accompany or follow the child to the hospital.

Following an accident, the school nurse will complete an accident report and submit a copy to the Business Manager. In a case where the parent/guardian requests the District compensate them for medical expenses, the parent must complete a “Notice of Claim Form” and submit the form to the Business Manager. The District does not pay medical claims. The Business Manager will submit the claim form to the District’s insurance company for review. (Notice of Claim forms are available in the Business Office.)

**Accident insurance can be purchased by parents/guardians by enrolling in the K-12 Student Accident Insurance Program. Information and enrollment can be found at www.studentinsurance-kk.com.

Inclement Weather/School Closures

During inclement weather, pupils will be permitted to go to the designated, supervised area in the building upon arriving at school. Students may also be directed to and required to remain in a designated area at other times during severe weather conditions. The decision to allow students to come in the building at these times will be made by the principal or the principal’s designee. Monitors and teachers will bring children inside during recesses when threatening weather appears. If the temperature with wind chill drops below zero (0) degrees, students are kept inside. Children are encouraged to dress warmly and to wear overshoes or boots. Clothing should be marked clearly on the inside of the item (for safety reasons) with the child’s name or initials.

School Closures: In the event of a serious storm, parents/guardians should listen to local radio stations for the announcement of school closure or access the District’s website at www.acsd1.org. The decision to close schools comes from the Superintendent, in cooperation with contacts throughout the county.

Safety Protocols

School personnel, law enforcement and students have all been trained in using the four (4) safety protocols. The following four (4) protocols have been put in place to maximize the safety of students and staff:

- Lock out – Securing the Perimeter
- Lockdown – Locks, Lights, Out of Sight (NO ONE enters or leaves the building)
- Evacuate – “To a Location” (Parents/Guardians will be notified of location)
- Shelter – “For Hazard Using a Safety Strategy” (e.g., Tornado we shelter in Hallway)

Fire drills and lockdowns are held monthly to enable students to practice responding to emergency situations, and instruction is provided on safety procedures in case of emergencies. Crisis intervention plans have been developed at the building and District levels to cover natural disasters and other emergencies.

Security Vestibules and Secure Entry Procedures

Albany County School District One schools adhere to a single entry system where visitors to the school must enter school via one secure entrance. The secure entry and vestibule system requires that visitors ring a buzzer or doorbell to gain permission to access the building. Once the school office verifies that a visitor can enter the building, the door latch will be released.

Visitors: For the safety of our students and school personnel, ALL visitors to District schools are required to check in at the school’s office before proceeding to any other areas. Visitors will be asked to show a photo ID and sign in and/or out at the school’s office. Visitors are required to wear an identification badge while in the school.

Student Visitors: Students who are not enrolled in a school in the District will not be allowed to visit classrooms during school hours.

STUDENT TECHNOLOGY ACCESS

Albany County School District One makes a variety of communications and information technologies available to students through computer/network/Internet access. These technologies, when properly used, promote educational excellence in the District by facilitating resource sharing, innovation, and communication. Illegal, unethical or inappropriate use of these technologies can have dramatic consequences, harming the District, its students and its employees. These Responsible Use Guidelines are intended to minimize the likelihood of such harm by educating District students and setting standards which will serve to protect the District. The District firmly believes that digital resources, information and interaction available on the computer/network/Internet far outweigh any disadvantages.

Access to the Internet is provided through the District's network, and each computer with Internet access and the District's network systems have filtering devices or software that blocks access to visual depictions that are obscene, pornographic, inappropriate for students, or harmful to minors, as defined by the federal Children's Internet Protection Act (CIPA) and as determined by the District. Students should not attempt to circumvent the filtering systems and should follow established procedures for requesting access to a site that is blocked and that the user believes should be allowed. These access requests will be reviewed by District personnel.

Electronic mail transmissions and other use of the District's technology resources by students, employees, and members of the public are not to be considered private. Designated District staff shall be authorized to monitor the District's technology resources at any time to ensure appropriate use.

The District is not liable for users' inappropriate use of the District's technology resources, violations of copyright restrictions or other laws, users' mistakes or negligence, and costs incurred by users. The District is not responsible for ensuring the availability of the District's technology.

Detailed information regarding these Student Responsible Use Guidelines for Technology can be obtained by visiting <http://www.acsd1.org/technology/procedures/rup>. Board of Education policy regarding student access to District technology is contained in policy #3013, Responsible Use Policy, and can be viewed by visiting the District website and clicking on the Board Docs icon from the front page.

Chain of Communication

When resolving a concern, please use the chain of communication. Many questions are easily and completely answered by communicating directly with the educator in charge of the class or program rather than contacting the principal or central office. Each situation should first be addressed at whatever level the initial action was taken, with appeals moving on to the next level on the chain of command.

Please use the following chain as a means of problem solving any of the following concerns related to your child's learning, behavior, or safety at school.

Academic/Behavior/Discipline/Instruction
